

RUSSIAN FLEET IN FRENCH BAY

Ships Were Recoaled And Overhauled For The
Efforts To Be Made To Dodge Togo.

THEY MAY SAIL IN TWO SECTIONS

Belief Prevails Among London Experts That Russians
Have Divided Their Forces--Breach
Of Neutrality.

(SPECIAL TO THE GAZETTE.)

London, April 18.—The Russian fleet is believed to be still at Kamranh bay, on the French Cochinchina coast, where the ships are being recoaled and overhauled preparatory for the final effort to dodge past Togo's squadrons and reach Vladivostok.

Confirming this belief, the Daily Mail's correspondent at Singapore gives a further report from the North German Lloyd steamer Prinz Heinrich that on Friday, April 14, the Russian cruisers Dmitri Donskoi and Rion were scouting outside the bay while a tug was bringing colliers alongside the warships, which were coaling, and that many boats were transferring provisions to the Russian vessels.

May Have Two Fleets.

The correspondent at Hong-Kong of the Daily Mail reports that the steamer North Anglia late Friday night sighted a strong fleet of cruisers off Bombay reef, steering south, using searchlights. The North Anglia was unable to distinguish the nationality of the vessels, but is reported here that the ships may have been Japanese.

There is some ground for the belief that Rotzovsky has divided his fleet. This is indicated by a Hong-Kong dispatch which says that a portion of the Russian squadron was seen Sunday at Turan bay, about 350 miles north of Kamranh bay. According to advice from Hailfong to a Paris newspaper, forty Russian vessels were recently sighted in that latitude, steaming north.

Neutrality Issue Not Serious.

The London morning papers are keenly discussing the neutrality question, for the most part in a strong pro-Japanese tone. The Morning Post takes the milder view that Kamranh bay is a mere fishing port and unable to provide coal or other supplies to the Russian squadron, which probably took shelter there to replenish from its own colliers, and that, though a technical breach of neutrality has been committed, the French authorities could hardly be held responsible unless it can be proven that they had previous knowledge of Rotzovsky's intentions.

TEN HOUR DAY LAW NOT BINDING, SAYS THE COURT

Federal Supreme Court Justices Hold That It
Interferes With Contract
Rights.

Washington, April 18.—A state law limiting the number of hours in a day and a week that a laboring man may work interferes with the free exercise of the right of contract between individuals and therefore is in violation of the United States constitution.

So decided the supreme court Monday when it held that the New York state law making ten hours a day's work and sixty hours a week's work in bakeries in that state is unconstitutional.

The decision is declared by Justice Harlan to be one of the most important rendered by the United States supreme court in a hundred years.

May Bring Strike.

The immediate result may be a strike of 85,000 union bakers throughout the United States, if the employers of New York refuse the demands for a ten-hour day on May 1.

The law involved in the case is section 110 of the New York state labor law prescribing the hours of labor in bakeries in the state. A baker in the city of Utica named Lochner was found guilty of permitting an employee to work in his bakery more than sixty hours in a week and fined \$50. The judgment was affirmed by the New York appellate court, the opinion being written by Judge Alton B. Parker.

Justices Are Divided.

The supreme court was far from being unanimous. Justices Holmes and Harlan both read dissenting opinions, and Justices White and Day concurred in Justice Harlan's view. The

A number of Russian warships are anchored in Kamranh bay, where they are re-victualing. The steamer Eridan, which was purchased by a local French firm has sailed with a full cargo of provisions for the squadron.

The health of the Russians is remarkably good. Only eight deaths from disease have occurred since their departure from Europe out of an effective totalling 18,000.

A Russian officer suffering from beriberi is in a hospital here. The other sick men who were brought here by the Russian hospital ship Oreil include Prince Cantacuzene, but the reports that the Oreil had wounded men on board are unfounded, as there had been no fighting up to the time of its arrival.

Admiral de Jonquieres has rejoined the French cruiser Descartes in Kamranh bay, Cochinchina, about 200 miles northeast of Saigon.

Ready for Final Dash.

St. Petersburg, April 18.—The news that vessels of the Russian Squadron have put into Kamranh bay, north of Cape Padaran, off the east coast of Cochinchina, bears out statements a week ago to the effect that Admiral Rojestvensky probably would seek shelter off that part of the Cochinchina coast and there coal and make his final preparations before embarking on the final stage of his journey.

No definite information is obtainable as to the length of the squadron's stay at Kamranh bay, or whether the warships have already sailed.

A Russian admiral expressed the conviction that Admiral Togo would not give battle near the Pescadore islands, Formosa straits. He said: "It would be a great tactical error to concentrate his squadron 800 miles from Japan and run the risk of having Rojestvensky slip by when by remaining in home waters Rojestvensky must come to him in order to reach his only base, Vladivostok."

All the Tokyo dispatches about the proclamation of martial law in the Pescadore islands and the probable presence of a Japanese squadron in Formosa waters are sent as bluffs. We do not know Rojestvensky's plans. He has worked them out himself, and knowing the admiral as I do, his own flag captain was probably in the dark when he entered the China sea."

STANDARD OIL HAS REACHED THE LIMIT

Commissioner Garfield Watching It
Closely—Cut the Prices
Today.

(SPECIAL BY SCRIPTS-M'RAE.)
Independence, Kas., April 18.—Commissioner Garfield, it is reported, has secured evidence from a group of producers in the Wayside district indicating a strong case of boycott and discrimination by the Standard Oil company. The producers testified that forty-one out of fifty leases in this district were unable to continue business as a result of the attitude of the Standard. It is understood the Standard filed figures and documents tending to show the course in Kansas dictated solely by the supply and demand.

Garfield accompanied by J. M. Parker, secretary of the Oil Producers' association, went to Wayside today for an inspection of the field there. They will probably go from there to Bartlesville.

Cut the Prices

Lima, Ohio, April 18.—The Standard Oil company today cut the price of crude oil five cents a barrel in Kansas and the two territories. This decline is the hardest blow yet dealt to the independents in these fields, as the Standard is now refusing oils below 32 degrees gravity and only taking a tenth part even of this grade. This practically means shutting down all the oil leases in the west. Hundreds of Ohio, Indiana, and eastern oil men are heavily affected. With this move comes the hope for central, west and eastern fields where the decline today was but one and two cents, respectively.

Not Much Effect

Chanute, Kas., April 18.—The Standard's sensational reduction of the price of crude oil created no consternation in this field. "The Standard has already done its worst," said an oil expert. "It practically is not buying any oil in Kansas anyhow. The trust has about six million barrels in storage and recently has been buying as little as possible." It is said the cut will hurt territorial producers considerably.

BEGIN WORKING TOWARD AN END

Legislature Starts In On The Weekly Grind
Of Business Last Evening.

MAY PASS THE PRESENT RATE BILL

Trading Stamp Bills Killed By The Assembly Last Evening--Would Indict Senator Barney
Eaton Immediately.

(SPECIAL TO THE GAZETTE.)

Madison, Wis., April 18.—The senate and assembly got back to work last night with a will, both houses going through lengthy calendars and clearing the boards for new work this morning. The attendance was large in comparison with previous Monday night sessions and in both chambers the feeling was abroad that the present week is to be one of industry in the legislative work and will end with the accomplishment of perhaps much more business than has been done in any previous week.

The Donald bill requiring campers to remove when ordered so to do by the owners of the property, was finally sent to the governor, a senate amendment being concurred in by the assembly.

The Stevens Bill

The assembly passed the Stevens bill, providing that thereafter sales of state lands must be paid for in cash only. Among the other bills passed by the lower house were Tarrell's, empowering the state board of health to determine qualifications for the practice of embalming; McGregors', to provide for the appointment of a state park commissioner; Crowley's, providing for licenses to agents to procure fire insurance policies in companies not authorized to operate in Wisconsin by giving a bond; LeRoy's, authorizing the more extensive use of voting machines; senate sanitary committee's, prohibiting the sale of canned goods containing deleterious preservatives or other ingredients.

Park Bill

The Madison Park and Pleasure Drive association bill, a measure to grant to park associations the right of eminent domain in certain cases, was advanced to third reading. The Stout bill requiring the state superintendent to prescribe a course for commercial schools and to grant certificates countersigned by him to such pupils as complete the course, was advanced, as were also two other bills by the same senator, to authorize free public lectures in high schools, and to prevent the bringing or improper influencing of an agent or employee.

County Supervisor

The bill revising the law concerning the office of county supervisor of assessments, with particular reference to compensation and time the officer shall be employed, and grading the length of employment according to the assessed valuation of the county, was on the calendar for

advancement to third reading. Several amendments were offered. Mr. Potter desired delay until Thursday but Mr. Dahl desired immediate action. More amendments came in as though to assist Mr. Potter, and finally his request was granted.

Trading Stamps

The trading stamp bill will not be interfered with by this legislature. Two bills were killed last night, one introduced by Mr. Thieme, to prohibit them, and another by the same member, to license their use. Mr. Westphal desired that the killing of one be postponed, but the author of the measures said he was satisfied with the report of the committee on manufacturers and labor which had recommended the bills for indefinite postponement. Among the other bills killed were Curtin's to change the time of the sessions of the legislature; McGregors', authorizing the appointment of policemen at religious and other meetings; Beedle's, to provide for a state liquor commissioner; Metzler's, to fix a standard for illuminating and fuel gas.

Civil Service Bill

The assembly advanced the civil service bill after tackling an amendment requiring the present state employees to compete for their positions with any other applicants. This removes the objection that the measure is designed to perpetuate the present employees in state jobs.

Ward Option Bill

The Thayer ward option bill was ordered to the third reading after the assembly had refused to pass Mr. Thayer's motion for suspension of the rules and immediate passage. The vote on both propositions was 42 to 40 in favor, but it requires a two-thirds vote to suspend the rules, while a plain majority is sufficient for the advancement. Assemblyman Warner, deacon of Congregational church who was richly supported in the campaign for election by Madison brewers, asked and received permission to withdraw his compromise substitute and voted for the bill. The senate postponed for the day the matter of investigating Senator Eaton, giving the judiciary committee more time to report. Senator Wyllie caused the committee on agriculture to introduce a new bill to require all live-stock imported into Wisconsin to be subjected to a tuberculin test and certified to be free from infection. The bill provides a penalty on railroads violating the proposed law, of \$50 to \$200 fine.

MEXICAN SCHEME WAS ONLY WORKED AS PERSONAL GAIN

Clever Promoter Succeeded In Deluding The
Public All Over The Coun-
try.

Washington, April 18.—William P. Owen, formerly member of congress from Indiana, former secretary of state for Indiana, once a minister of the Gospel, organizer and promoter of the Ubero Plantation company of Indiana, the Mexican Coffee and Rubber company of Indiana, the Ubero Plantation company of Boston and the Consolidated Ubero Plantation company, also of Boston, has gone to Europe, and thousands of investors in the stocks and bonds of the companies are holding the sack. The sack is empty, and the trusting public is out anywhere from \$1,000,000 to \$3,000,000. These facts are set forth in a memorandum of the attorney general for the postoffice department, accompanying a fraud order which was issued against the two Boston concerns.

Little Left for Investors.
It is also stated that Arthur W. Stedman and Frederick C. Hood, two men prominent in Boston business and social circles, the former president and the latter vice president of the Consolidated Ubero company, are likewise absent in Europe. Judge U. Z. Wiley of Indiana, at present judge of the Indiana appellate court, is named as treasurer of this company. The investigation conducted by the department disclosed one of the most gigantic and baldiest frauds that have been perpetrated in recent years.

Emboldened by success, Owen and Borges next reorganized the Consolidated Ubero Plantation company, issued bonds to the amount of \$2,500,000 and sold both the bonds and stock on monthly payments. This company was to develop 6,000 acres of Mexican lands, which it was to purchase through the Tropical Securities company (Owen and Borges again), and from the Mexican Coffee and Rubber company, an Indiana concern. The latter company was capitalized at but \$85,000, and the fraudulent character of the transaction is evidenced by the fact that the Consolidated company was to pay it \$300,000 for property, said to be worth not over \$40,000 or \$50,000. Of the 6,000 acres of land, 3,733 are still virgin forest, 1,087 are valueless, and only 1,235 have been planted.

To sell the bonds and stock representations were made and fulfilled that dividends would accrue immediately. The names of prominent men were widely heralded as officers and directors.

NEWS FOR THE PLAY-GOERS

"The Way of the Transgressor" which will be the attraction at The Myers Grand, Wednesday, April 19, is a novelty in every way. It has many comedy features, a host of entertaining vaudeville specialties and the scenic surroundings are of such rare beauty that it can be better described as a pictorial representation of a story of life. The plot is charmingly unique but at the same time so full of heart interest that it will

parry, pronounced by competent authorities as the greatest singing organization of the season, will appear at The Myers Grand, Saturday, April 22. This company is newly organized and may be considered the successor of the famous Bostonians, which Mr. Parley brought to its highest point of excellence ten years ago. The principals include such great singers as Viola Gillette, Alice Dovey, Joseph Brown, Charleworth Meakins,

appeal to all classes of theatre goers. The action of the play is rapid and admits of a number of effective climaxes and stirring situations. One of the features of the production, and one that cannot be duplicated by any company, is the introduction of four highly developed canines, who perform parts in the play in a manner that will convince any one that they are almost human. These magnificent specimens of the Landseer breed were educated by Wm. T. Stephens and for twelve weeks played an engagement in London. Eng. endorsed by Royalty. They show their intelligence in a number of ways, and as well of their work is

and George J. MacFarlane; and such acceptable fun-makers as Mable Hite, Elvia Crox Seabrooke, Walter Jones and the famous romantic actor, Harry Carter. The book and the lyrics of the opera are the result of the talents of Mrs. A. C. Tyler, a prominent New York society woman, and J. Cheever Goodwin; the music is by Frederick Coit-Wright. The scene with which the play opens is in an Italian city and is a remarkable product of stage art. This pivotal piece is an old palace. This has come into use as a seminary for the housing of American heiresses who desire noblemen as husbands,

done in a quick manner, they are far different from the listless animals who are billed as trained dogs. Important parts have been assigned to them in the play and the way they obey cues and assist in the development of the plot is astounding. With all of these features that cannot be duplicated by any other company on the road, the engagement of "The Way of the Transgressor" should be the most successful one of the season.

even if they have to pay for them. It is conducted by the Principessa di Villamonte, who, with her worldly wisdom, has founded it for the purpose of procuring some of the good old loosely-located American dollars. Her granddaughter, Violetta, is a beautiful creature, and around her is built the dainty but serious love story of the opera. It is a story that is worthy of the creative brain of Mascagni. And it is a love story that will please the soul of a Janesville audience.

Janesville Daily Gazette, Tuesday, April 18, 1865. THE OBSERVANCE OF TOMORROW

The Program of Exercises. At a meeting of the citizens held in the common council room this afternoon to take measures for the proper observance of the day set apart for the funeral of the President, on motion of John R. Bennett, Esq., Mr. Alexander Graham was called to the chair and Mr. E. S. Barrows appointed secretary.

On motion of Hon. I. C. Sloan it was resolved that we have a procession. On motion of H. Richardson it was resolved that the Masons, Odd Fellows, Sons of Temperance, and all other civic societies be invited to join the procession with such insignias of their respective orders as they may deem appropriate for the occasion.

On motion it was resolved that the citizens of Janesville and Rock County be invited to join in the procession and to take part in the exercises of the occasion.

On motion of Dr. Treat it was resolved as the sense of this meeting that we recommend in accordance with the proclamation of the mayor, that all places of business and all saloons be closed from 10 to 2.

John R. Bennett, I. C. Sloan, H. Richardson, Dr. Treat, J. T. Wright, E. S. Barrows and S. J. M. Putnam. On motion of I. C. Sloan the chair appointed the following persons to act as marshals: James Sutherland, R. B. Treat, Dr. Robinson, S. J. M. Putnam, S. Holdrege, Jr., and Dr. Whiting.

On motion the chairman was added to the above. E. S. Barrows, Secretary.

ORDER OF PROCESSION. The committee of arrangements recommended the following order of the procession: Military escort, band, marshals, clergy in attendance, pallbearers, hearse, mayor and common council, firemen, societies, citizens.

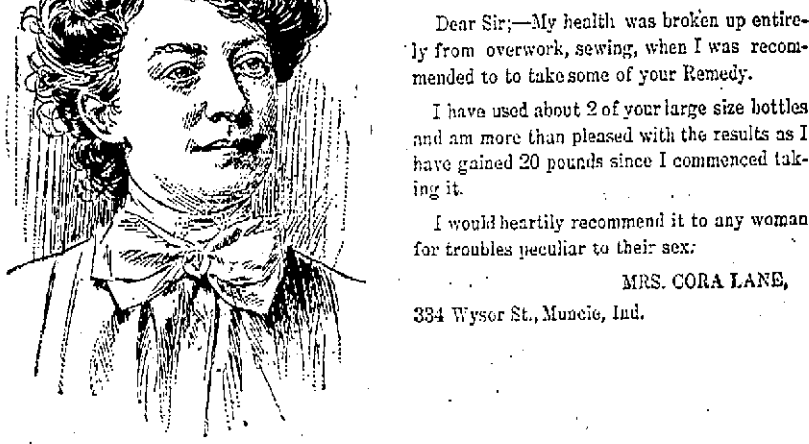

At the funeral services in honor of President Lincoln tomorrow, at Hyatt House Hall, no gentleman will be admitted to the hall except in the procession.

The procession will form at the corner of Court and Main streets at 1/2 before 11 o'clock a. m., so that it will be ready to move at 11 o'clock precisely. It is hoped that all citizens of Rock County, who may receive this notice will, as an expression of their profound sorrow for the great loss which has befallen this nation, join in the ceremonies tomorrow.

Proclamation. In accordance with the proclamation.

THE NEW FOOD.

In the last number of the Medical
Recorder published by Dr. J. P.
Thorne, the noted Janesville oculist,
the following interesting article ap-
pears on the new food supply:

"The nineteenth century was a re-
markable epoch in the world's progress
on account of its electrical discov-
eries and mechanical inventions. It
has seemed as though the limit
had been nearly reached and that the
twentieth century would not be marked
by new discoveries of great im-
portance. This may be true in the
mechanical field but the present
century promises to outstrip all other
periods in discoveries of practical
importance to mankind. We are
just on the dawn of great discoveries
in the development of new forms of
plant life which will provide im-
mense amounts of new food products.
The greatest man in the world today
in this field is Luther Burbank, of
Santa Rosa, California, who has cre-
ated many thousand new forms of
fruits, flowers, and vegetables. The
March and April issues of the Century
Magazine contain articles on his work
by Wm. S. Harwood, which show the
possibilities of science applied to the
production of new forms of vegetable
life. The product of this genius
which promises to be of greatest
practical importance to mankind is
the development of a new thornless
fruit-bearing cactus from the prickly
cactus of the plains. Mr. Harwood
says: 'He has bred this dreadful
scourge of the desert, this parasite
among plants, until it has become the
producer of a delightful, nutritious
food for man and beast—until, in his
estimate, considering the unusual
areas of the world where it will
thrive, it will afford food for twice
the people now upon the earth. Mil-
lions of beasts for food and for bur-
den-bearing of man may be supported
from the food this plant can now be
relied upon to give.' This is a strong
statement and when carefully con-
sidered presents a great triumph of
genius. This plant bears a nutritious
and palatable fruit and the leaf is a
nutritious food for stock. Horses,
cattle, sheep hogs and poultry thrive
on it. It can be grown from the pole
to the equator, on any sort of soil,
good or bad. It is possible that in
this plant the world will have a new
food supply which will make easy the
solution of some of the economic
problems of the time.

SOMEWHAT OF A SURPRISE.

"Some surprise was expressed,"
says Newspaperdom, "by the readers
of newspapers in New York when, a
few weeks ago, the old and well-
known firm of Ackers, Merrill & Con-
dit Company began to advertise ex-
tensively in the local dailies. Such a
long established house, it was
argued, had no need to advertise,
and the fact that it was doing so, in-
dicated that its business was falling
off. The fact of the matter was, the
firm wanted to do more business than
it was handling, and used the best
method for getting it. What has been
the result? Advertising has so in-
creased its trade that representatives
of the firm say that they have the
largest business of the kind in the
world. Owing to an increase in sales
they say that they can afford to al-
low themselves a smaller margin of
profit, and have thus won popular-
ity."

The newspaper is recognized today
as never before as the cheapest and
most effective way of reaching the
people. It is a constant visitor and
is read in thousands of homes every
day. It is the one medium used by
all progressive merchants, and when
judiciously used never fails in re-
sults.

The employees at the state school
for blind, as well as other state in-
stitutions, are complaining because
their pay checks are withheld. This is
short sighted policy and is the
outgrowth of too much reform. The
stewards of these institutions are not
entrusted with any money, under the
new order of things, and while the
state demands prompt service, it
pays when it gets ready and employees
suffer accordingly.

The boy of 18 and girl of 15, who
eloped from Freeport, went to Chicago
and from there to Milwaukee, where
they were married, have gone
home to complete their education.
The nearest they came to Janesville
was when they passed through Rock-
ford. That was near enough for a
local story.

The merchants of Chicago have or-
ganized a teamsters' association with
\$100,000 capital, for self protection.
It is an open shop organization, and
any teamster may participate who
don't belong to the union. When
well under way there will be no more
teamsters' strikes.

The chances are that there will be
no more spring shooting in Wisconsin
this season. This is as it
should be, and the new law will be
endorsed by sportsmen generally. If
game birds are to be preserved, it
can only be done by protection.
While quail are plenty all through
the south, no one thinks of shooting
them after the first of March. Ducks
are entitled to the same protection
on their northern flight.

The Texas Rate Commission is
getting in its work, much to the dis-
comfiture of railroads doing busi-
ness in that state. Wisconsin is asked
to adopt the Texas law. If rash
legislation prevails, the state will
have plenty of time to repent.

Secretary Taft will make a trip to
the Philippine Islands in July, accom-
panied by a commission, of which
Congressman Cooper of the first dis-
trict is a member.

Mr. Rockefeller is finding it diffi-
cult to give \$100,000 to the American
Board of Missions. The management
want pure coin fresh from the mint,
untinctured with oil or gasoline.

Mother Jones, of strike fame, is at-
tempting to stir things up among the
copper mines of the Upper Peninsula.
Thus far she has failed in gaining a
hearing. Mother Jones has the repu-
tation of being a disturber.

If Cassie Chadwick can find \$52,
000 for a bail bond, she will be given
her liberty pending trial. She has
been good at finding things, and the
chances are that she will succeed.

The strenuous work of the legisla-
ture is still progressing, with that
arch enemy, the railroad, well to the
fore. It will be a relief to the state
when the lawmakers go home.

Continued cold weather is promised
for May.

Making Threats

Madison, Wis., April 18.—"If
the legislature attempts an in-
vestigation of the testimony
and acts of Senator Barney A.
Eaton there will be such sensa-
tions as have never before been
sprung in the history of the
state." This is the promise of
the friends of the thrice indicted
Milwaukee member, who
secured an acquittal by a jury
when tried on the charge of ac-
cepting a bribe of \$100 for his
vote and influence against the
barbers' license bill. Senator
Eaton declared on his trial that
he took the money but that it
was for no improper or unlaw-
ful purpose, merely to fight the
bill by paying for cigars, drinks,
dinner and entertainment. He
also testified that many im-
portant matters of legislative
business are determined over
wine in saloons and hotels.
Senator Frear, with the back-
ing of a goodly number of sen-
ators, both administration and
stalwart, is aggressively de-
manding that such statements
by a member on oath be not
allowed to stand uncontradicted
and undenied and that Sen-
ator Eaton be kept out of the
legislature until an examina-
tion be made of his case, to
determine whether he was guilty
of any violation of the im-
punity of the legislature in ac-
cepting the money for the purpose
elaimed, and if the important
business of the legislature is,
as he testified, determined in
saloons. The matter has been
threwed out before the senate
judiciary committee in ex-
ecutive session, no one being al-
litted with the members ex-
cept L. G. Wheeler, the attor-
ney for Senator Eaton. It
seems to be assured that the
proposed investigation will be
made. The scandals hinted at
as in prospect are associated
with the Superior Grand Inspec-
tion bill, the anti-cigarette bill,
and other measures of the ses-
sion of two years ago, but par-
ticularly is the grain bill men-
tioned. Much that is said in
this regard is of such a vio-
lent character that it would be
dangerous for a newspaper to
print it for fear of libel suits.
The investigation may make
possible the publication of this
interesting gossip.

STATE NOTES

Because of the death of his wife
and fancied financial complications,
Joseph Friedricks, aged 44, one of
the best known farmers of Caledonia,
became deranged and committed sui-
cide by hanging himself.

Parties from Chicago are in the
vicinity of Jefferson looking up the
old air line right of way from Chi-
cago to Portage. They are interest-
ed in the interurban from Chicago
to Lake Geneva, which they propose
extending north on the old air line
survey.

When the case against the two
young Italians charged with assault-
ing a girl near Corvina came up be-
fore Court Commissioner Wentworth
at Racine it developed that the name
of the girl was Miss Kristine Nielsen
and the man who committed the as-
sault, Frank Bruno. The examination
was adjourned to Wednesday, bonds
being placed at \$600.

As a result of the promotion of
Colonel James Buchanan to the grade
of brigadier general, Lieutenant Col-
onel G. P. Borde at Plattsburg bar-
acks, N. Y., has been promoted to
colonel and assigned to command the
Twenty-fourth infantry at Fort Har-
rison, Mont.

Two United States mail carriers
were stricken down at Racine yester-
day while in the discharge of their
duties. Frank Hoffmann fell on a
west side street and was picked up
unconscious and removed to his
home. An attack of heart trouble
was the cause. It is expected he
will recover. Andrew Bull, a rural
carrier, was taken with appendicitis.
It was necessary to remove him to a
hospital, where an operation will be
performed.

Ruben S. Boyd was appointed post-
master in Glen Ellyn, Ill., and Ed-
ward A. Jefferts at Kankakee.

Colonel Arthur L. Wagner of the
army war college, who has been se-
riously ill at Washington, is much
improved.

M. Gutowski, an attaché of the
Russian embassy at Washington, is
to retire and will be succeeded by M.
De Thal, second secretary of the
Russian legation at Copenhagen.

More Loaves to One Sack of
JERSEY LILY

Than Other Flour.

The fact has been proven that a
sack of Jersey Lily Flour will make
more loaves of bread and better bread
than other flours. Take into consid-
eration these points and couple the
efficient baking ability of Rock coun-
ty housewives with this and there
are more good cooks around this sec-
tion than in most parts of the coun-
try. The ability of these good cooks
is not hampered with an inferior
flour when Jersey Lily is the basis.
The wonder is that any good cook
will be without Jersey Lily Flour—
there will be sufficient proof in a
trial sack.

FAREWELL MEET OF OLD COUNCIL

EVEN CITY HALL CAT SHARED IN
GENERAL DEPRESSION.

EASTER BONNETS FOR POLICE

Will Be of a Snowy White According
to Order Passed—Paving Con-
tracts Let—Other Business.

"Ordered by the mayor and common council of the city of Janesville that police officers be and hereby are required on or before the first day of May, 1905, to wear at all times when on duty, a uniform of the following description, to-wit: coat, pants, and vest of navy blue—coat to be sack-out with brass buttons and a star on the outside—and WHITE HELMETS. The city clerk is instructed to purchase a dozen regulation clubs of uniform pattern. This measure was passed by the city council just before it adjourned last evening. It was recommended by the committee on police affairs, consisting of Aldermen Schmidley, Connell, and Grove. The originator of the idea of the gleaming, snow-hued head-pieces which are destined to transform our police force into a squadron of White Hussars, whoever he may be, modestly disclaims credit. So it must be shared by all three. It is believed that these miniature pearly domes will make the wearers conspicuous at a distance of half a league and henceforth no one will ever complain that he cannot find the officer among the seas of humanity that ebb and flow hourly on the busy thoroughfares. The police, themselves, do not welcome the new Easter bonnets with peans of Thanksgiving. After all that has been done for them, the ingrates prefer caps.

Paving Contract Let
Save the police measure, nothing of a startling nature came up for consideration. All the aldermen save C. W. Schwartz were in their seats when the session was called to order. The contract for paving East Milwaukee street from Main to Division, West Milwaukee from High to Academy, and South Main from Milwaukee to South First, was awarded to Elzy & Dunn of Marshfield, Ia., the lowest bidders. Fred E. Green received the contract for the plumbing work on the water, gas, and sewer service pipes. The bonds of both contractors were accepted. Acting on a report from the assistant street commissioner to the effect that the sidewalks in front of the Lincoln, Webster, and Washington schools and the city's lots on Prairie avenue were in such bad condition as to be almost beyond repair, Alderman Matheson moved that the city clerk, city attorney, and assistant street commissioner be instructed to advertise for bids for the construction of standard cement walks at the places designated in the report. Motion prevailed.

Standpipe to Be Removed
Reports from the finance committee, the city treasurer, the municipal court, and the school board were accepted. Alderman Matheson reported that a standpipe near the Janesville Sash & Door Co.'s plant on River street had been out of service and useless for two years and that on account of its freezing in winter it was not worth while to repair the same. The city had been paying \$25 a year for this and if removed the Water Co. would make no claim for rental. An order calling for the disconnecting of the pipe in question was passed. Alderman Murray of the highway committee asked that further time be granted for the consideration of a petition submitted by a majority of the property-holders on South Second street that in the future all sidewalks on that avenue be built to the curb line. As the general regulations now stand all the property-holders in a given block must agree upon this proposition before it can be carried out.

Grades and Crosswalks
The city engineer was instructed to prepare and file in the office of the city clerk grades for the following thoroughfares: Williams, Hyland, and Thomas streets from the intersection of Glen to the intersection of St. Mary's avenue; St. Mary's avenue from the railroad to Garfield; Walker and Hyatt streets from the railroad to Milton avenue. Glen street from Main to Milton avenue. A sidewalk grade on the east side of Wisconsin between South First and South Second and a curb grade on the south side of Riverside avenue from Jackson street west, were called for, and property-owners on the latter thoroughfare were given permission to construct sidewalks to the curb line. Owners of property in the triangle between Center and State, east of the C. & N. W. right-of-way, were given permission to construct a four-foot walk on Center street. Brick cross-walks on the west side of Main street where it is intersected by South Second and by South Third streets, were ordered.

At the Call of the Mayor
The city clerk was authorized to call for bids for the city printing during the ensuing year by an order introduced by Alderman Shortland. The committee on parks reported that Thomas Croft had been employed to care for the parks at \$40 a month and began work on April 14. Alderman Jackson reported that the bonds of the incoming city officials had been found in due form with one exception and moved their acceptance. Alderman-Elect Baumann was invited present at the meeting and declined. Alderman Matheson, Schwartz, Schmidley, and Grove retired from the service of the city with the close of last night's meeting. They have been conscientious workers for the welfare of Janesville and will be missed. The new council meets for organization at the call of the mayor, probably Thursday evening of this week. At that time the nights on which regular meetings are to be held will be determined upon.

Jury Still Out: The Johanna Keppen vs. Clarke automobile damage suit went to the jury in circuit court at eleven o'clock this morning and had not returned a verdict at 3:30. The case brought by Wm. Keppen against the same defendant is on trial this afternoon. It is the last case on the calendar. No more jury cases until next November.

BIG WATCH DISPLAY

Stock That Equals the Showing of the Large City Stores.
The large assortment of watches displayed in the windows at F. C. Cook & Co. is attracting much attention and would be a credit to a store in a much larger city than Janesville. The display is but a hint of the big stock of watches inside the store. They are also official watch inspectors for the Chicago & North-Western and Chicago, Milwaukee & St. Paul railroads, and are making an effort to be the leading watch concern in the state. They make a specialty of carrying in stock all the high-grade movements carried on railroads today, and are expert watch repairers. They can make your watch keep time.

HALF CENTURY OF WEDDED HAPPINESS

Mr. and Mrs. J. T. Wright Celebrated Their Golden Wedding Yesterday.

Mr. and Mrs. J. T. Wright celebrated their golden wedding anniversary Monday, the 17th day of April. Mr. Wright was a native of Syracuse and his wife a Miss Hunt of Auburn, New York. The ceremony was performed by Rev. Dr. Nelson, pastor of the Presbyterian church of Auburn. The next year the young couple came to Janesville and a year later occupied the home on Mineral Point avenue, where they have since resided.

Owing to modesty, the anniversary was kept so quiet that but few of their many Janesville friends were apprised of it, but the little company which assembled in the evening, expressed congratulations which will be voiced by the community in which they have so long resided.
Among the relatives from out of town was S. W. Lightbody and family and Frank Ruger, all of West Superior. Letters by the score and telegrams of congratulation evidenced the thoughtful regard of many old-time friends, and under the inspiration of the hour the clock was turned back, while the memory of other days softened the wrinkles which time had traced and caused the eyes to sparkle with old-time lustre.
Fifty years, the half-mile stone of a century, is a long time for a man and woman to travel along together, and the pathway, not always smooth, is the supreme test of love wrought out through sacrifice.
The golden anniversary, so rare and yet so beautiful, comes as a crowning glory.
The fire of youth and the ambition of mature age is softened and purified in the afterglow of a bright twilight filled with memories of associations and cheered by hope which reaches beyond the vale.
Some people never grow old. The step may lose some of its elasticity, the color may fade from the cheek, and wrinkles appear on the brow, but the heart, the well-spring of life, beats with old-time fervor. Mr. and Mrs. Wright are fifty years young, as Gilbert Hubbard expresses it, and the same genial atmosphere fills their home today which has filled it through all the years of their pilgrimage. May they journey on together until the diamond anniversary crowns another quarter-century.

TOOK WHEEL OFF A BUGGY
WHERE FIRED FOR ASSAULT
John Higgins and Dell Crandall of Town or Janesville in Court Today.

Driving along in a heavy lumber wagon one moonlight night last winter, John Higgins and Dell Crandall of the town of Janesville hooked the wheel of a buggy driven by Miss Nettie Thompson, upsetting vehicle and occupant. They drove right on oblivious of anything out of the ordinary having happened. They were tried in municipal court today, found guilty, and fined \$10 each and the costs.

TO GOLD-BRICK LEGAL LIGHTS

Further Attempts Were Made by One Dan Murphy in This City Yesterday.

While the big game of netting the lawyers of Rock county was in progress yesterday, a lone artist by the name of Dan Murphy, claiming to hail from Hammond, St. Croix county, put in an appearance and tried to "work" A. M. Fisher, Stanley Tallman, and others. He had a big proposition in the form of a deed at Madison which he was going to bring in to the courts and if the attorney would advance him his fare thither a great case involving hundreds of dollars would be started. When Mr. Tallman refused to have anything to do with this sort of a proposition, he tried to borrow a quarter.

Jailed for Drinking: For drunkenness and disorderly conduct E. S. Smith was this morning given five days in jail, by Judge Field, and a fine of \$2 or five additional days.
Will Speak to Men: Rev. Denison will speak this evening at the Congregational church to men only. His topic is "The Pillars of Manhood."

HOLY WEEK SERVICES WILL BE HELD IN THE EVANSVILLE CHURCHES

Other News of the Eventful and Personal Nature From the City
Up the Line.
(Special to the Gazette.)

Evansville, April 17.—Holy week will be daily observed by several churches in this city. The Methodist, First Baptist and First Baptist churches will hold union services on Wednesday, Thursday and Friday evenings, on the general theme, "The Cross." Wednesday evening the services will be held at the First Baptist church, Rev. Churm will speak; Thursday at the Free Baptist church, Rev. Harlan will speak, and Friday at the First Baptist church, Rev. Parry will speak.

St. John's church will hold services on Tuesday, Wednesday and Thursday and Friday evenings, also Friday morning at 9:30 and from 12:00 to 3:00 o'clock.

Mrs. Levi Sperry visited over Sunday with friends in Madison.

There was a large attendance at the dance given in the Opera house Saturday evening.

Lois Wright played violin and cornet solos at the West Side Theater in Jansville Friday evening. He was awarded first prize. Miss Cora Harris was his accompanist.

J. H. Richards and family have returned from spending the winter in Mississippi.

The Economy Store held their Easter opening on Saturday. The store was prettily decorated with palms and ferns.

FINANCIAL SUCCESS CROWNS EFFORTS OF MILTON LADIES' CLUB.

Art Loan Exhibition For Whitford Memorial Hall Fund Netted Goodly Sum.

Milton, April 18.—The Art Loan Fair of the Ladies' Village Improvement Club was a money maker. The receipts aggregated three hundred dollars for the benefit of Whitford Memorial hall. Too much praise cannot be given to the chairman of the committee on arrangements, her associates and the entire membership of the club and also others not connected with the organization, whose united efforts made the affair one of the most successful and enjoyable events that the village has even seen or patronized. The management are under great obligations to friends abroad and at home for liberal donations, for both the booths of Milton Junction, the township and this village for the very liberal patronage given the entire week and also for the many cheering words from patrons, which did much to lighten the labors of the overworked, strenuous ladies who had the labor in hand. Mr. Ezra Goodrich was not only the thanks of the club, but also of our citizens generally for his generosity in placing the Milton House at the disposal of the club, without charge, as it is quite doubtful if any other suitable building could have been secured, in which event our citizens would have been deprived of this charming financial and social success.

Supt. Killam shook hands with Milton friends and that included all who met him, Thursday.

Chas. Grier, of Milwaukee, visited Mr. and Mrs. D. W. Williams Friday. Mr. Grier will ride to a Chicago running stable the coming season.

Prof. Edwin Shaw preached at the S. D. B. church Saturday morning.

The Johnson Creek postmaster was in the village Saturday.

Will J. Davis and family, late of Long Beach, Cal., are in the village and as their household goods are here. It is hoped that they will decide to make their old home their future home.

The steam drill for drilling the well at the school house is on the ground. The well is to go down a sufficient depth to reach the St. Peter sandstone formation, which will prevent any contamination of the water from drainage.

Dr. L. S. Hurley and wife of Jansville visited relatives in this village Sunday.

The snowstorm and icy northwest wind of Sunday again discredited the "early spring" prophets and fattened out the garden seed market.

WASTING AWAY

It's the small but constant loss of flesh that indicates physical waste—the gradual slipping away of healthy flesh, pound by pound, which no ordinary food seems to restore. Scott's Emulsion will restore it. This Emulsion is the greatest flesh builder obtainable. Scott's Emulsion first stops the wasting—that's one gain. Then when it supplies new flesh and takes one back to normal strength and weight, that's another gain and a big one.

TRUE
Before Mother's Friend was introduced.
The older the prospective mother be the more difficult the ordeal through which she must pass before she experiences the glory of the maternal state. This was true before
Mother's Friend
was introduced, but now tangible evidence in the shape of countless mothers of advanced years who have used it with entire success forces us to gladly refute the integrity of this statement.
Old or young, the result is the same. It is simply indispensable during the parturient state, and absolutely invaluable at the crucial time.
For external massage, easy and simple to apply, wonderful in its effect, it surely is a living monument to the truth of that old adage, "What's in a name?" We reply, "Simply Mother's Friend." \$1.00 at all druggists. Send for book, "Motherhood." It is free.

BETTER CIGARS FOR LESS MONEY.

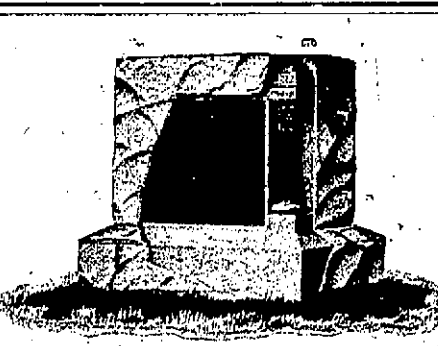

This is the Reason Why Smith Drug Co. Recommend Wadsworth Bros' Cigars.

"In the last few months," said Mr. Smith, of the Smith Drug Co., "we have gained a wonderful sale for Wadsworth Bros' Cigars." These cigars give better value for the money than any other we have ever seen.

Our pride in giving our customers the best of goods for the least money made us recommend the Cigars to those who were smoking ten or fifteen cent goods.

Chicos have a long Havana filler, burn freely with a pleasant fragrance and are a mild and enjoyable smoke that pleases the most fastidious. "It is only about once in a hundred times," he continued, "that we find a cigar equal to its manufacturer's claims but in Chicos we found one even better, one that fully confirmed what Wadsworth Bros. asserted, a better cigar for less money."

It sells for five cents straight, and as we said before we recommend it to all who want a good cigar no matter what the price.

What "The American Boy" Is

The magazine for boys which has been in successful operation for several years.

An established feature in thousands of the best American homes.

The regular subscription is \$1.00 and is well worth it.

Clean, wholesome and bright from cover to cover.

Tells of travel, adventure, sports and pastimes. Aims to develop manliness in muscle, mind and morals.

Tells how to do things—make boats, take pictures, fit up a gymnasium and other things which interest and profit a boy.

The most discerning parent will at once see the pleasure to be derived from the pages

We have made a special arrangement with the publishers by which we can give this magazine free to our customers.

Please read the offer carefully, call for a sample copy, and take note of the liberal conditions.

Note well that the prices on Ziegler clothing are as low as offered for first-class merchandise anywhere.

In addition to the good values you get "The American Boy" Free.

Ziegler's Boys' Department

This is the most complete Boys' Department in Janesville.

Includes the choice of the world's best makers for younger men and little men.

Has built its place in popular favor by the sale of such clothing as can be depended upon for the utmost style, finish and moderate price.

Its success is, we reasonably believe, to be the best proof of the truth of the above statements of fact.

"All-Boy" values.

Spring Styles Now Ready

THE KEY NOTE IS ECONOMY.

The key-note of all our advertising is economy. Every section of the shop has its own object lessons. There's no economy in trash; there's no economy in any article of merchandise that is made as a make-shift substitute for a really good thing. When honest up-to-date goods at lowest possible prices are offered you, there's true economy in the purchase of such goods. This store stands ready with its proofs.
